

Guest lecture on “Computing”

Date of the Event	02.05.2023
Title of the Event	Guest lecture on “Computing”
Organized by	Department of Computer Science and Engineering, Department of AI&ML MVJCE, Bangalore
Name of the Resource Speaker	Mr. Baikuntha narayan biswal , Assistant Vice President , CLM transformation, Deutsche Bank group, Bangalore
Day of the Event	Tuesday

A Guest lecture on ‘**Computing**’ was organized by the AI&ML & CSE Department on 2nd May 2023, from 10:30 am to 01:00 pm. Mr. Baikuntha Narayan Biswal , Assistant Vice President , CLM transformation, Deutsche Bank group, Bangalore was the guest speaker. The Welcome note was given by Pranav of III year, CSE, MVJCE. The program was presided over by Vice- principal Dr M. Brindha.

The Event was organized for III-year CSE and AIML students. The event aimed to get the awareness on role of computing in today’s world, its advantages and challenges. The purpose of the guest lecture was to expose the students to the various aspects related to the foundation of computing and the latest computing techniques used in industries, today.

On his introductory remarks, Mr. Baikuntha Narayan Biswal explained the role of computing. He pointed out the various computing methods. He mostly explained about the role of clouds and its implementation part in real world.

Cloud computing is on-demand access, via the internet, to computing resources—applications, servers (physical servers and virtual servers), data storage, development tools, networking capabilities, and more—hosted at a remote data manager managed by a cloud services provider (or CSP). The CSP makes these resources available for a monthly subscription fee or bills them according to usage.

Mr. Baikuntha Narayan Biswal engaging the session

The students who wanted to build their career in cloud computing were the major focus of the suggested guest lecture. It included a succinct introduction to cloud computing. It also covered the fundamentals of the cloud based application followed by application areas of those applications, which will give the students a thorough understanding of the cloud deployment and integration process. 300 students participated in the guest lecture session.
